China Relief

The Japanese have been fighting China for nearly five years now. They are fighting hard today in Burma, which will doubtless save the lives of many American soldiers. The Chinese need funds to carry on the war against Japan and to keep their people from starving.

Will appreciate any amount you see fit to give.

J. W. EZELL,

Chairman for China Relief

NOTE: This worthy call is one of many every American community in our nation must heed. It is a reminder that many of our life-long luxuries and frequent careless wastes should or must be stopped. Not a single thing, in this dark hour of millions of starving peoples, should be omitted that would help suffering humanity. Never before has the world looked to America for help as in this day. Our responsibility to others is appalling—shall we fail?

Rains Delayed The Neinda Rabbit Drive

One of the best things the Neinda farmers could wish for was the fine rains that came just right to "kill the rabbit killing" that they advertised and planned for last Tuesday. But the rabbits are still alive and getting ready to teach a lot more how to hop out, so the farmers are going to try again to pull off that drive, and serve something good to eat.

NEXT MONDAY THE TIME

Now they want it understood that next Monday, April 13, they will try to have that drive, and the same program will hold good that was planned this past Tuesday. Don't forget this.

There is one thing the women are regretting: You know they were to prepare the pies, cakes, and other fine trimmings, and they did, for they could not wait till the last minute, like the men did about barbecuing the beef. The women cooked up all that they were to furnish, and by heck, their own men got to eat all of it. Now the men held back the beef in cold storage and so the same nice beef is on hand to be barbecued, while the dear women have to go to some more cooking. That was a double break for the men, see?

W. D. Cooper, one of Hamlin's pioneer citizens, has been very ill for several weeks, but at this time shows improvements. His host of friends hope to see him out again as the warm spring days come on.

Mrs. J. P. Byford of Waco came last week end to visit her brother, W. D. Cooper who was quite ill. Mrs. Byford remained only a few days, having to return on account of serious illness in her own family.

Let's Remember "Navy Appreciation Week"

Jones County's quota is \$525.00 in the Texas drive for \$210,000 for the Navy Relief Society, as announced by Knox Pittard, Jones County Chairman.

Mr. Pittard was recently named chairman of the Navy Relief Society for Jones County by Attorney General Gerald C. Mann, Chairman of the Texas Citizens Committee of the Navy Relief Society.

Governor Coke Stevenson has proclaimed the week beginning April 19th as "Navy Appreciation Week" in Texas, and during this period the solicitation of funds will be made. A chairman has been named in every county in Texas in order that the entire state may be afforded an opportunity to contribute to this war effort.

The Navy Relief Society is the substitute for the head of the family when a man is in the Navy, Coast Guard or Marines and is fighting our battles on the high seas or battlefronts. The Navy Relief Society relieves our navy men of the anxiety concerning the welfare of their loved ones at home. In contributing to this fund we are sharpening the fighting edge of the fighting men.

Since the beginning of American Naval history, the men of our Navy have banded together to be assured that their families back home would be cared for in time of need. This is the first time these men have asked the public to assist them in their relief fund. But since Pearl Harbor the burden has been too great for them to carry alone.

"I know that the citizens of Jones County can be counted on to do their part gladly, and I am confident that our quota shall be reached, if not exceeded, by or during Navy Appreciation Week in Texas."

—Knox Pittard, Co. Chairman.

NOTE: In Hamlin, Star Inzer is the chairman for collecting Navy Relief funds. If every community gives in proportion to the number of men in the Navy Services—dependent ones "back home" need not suffer.

VICTORY BOOK CAMPAIGN

To date, 200 books have been brought in to reduce our quota of 700 books to 500. These books are to go to army camps for use by "our boys".

Please bring your book contribution to the Red Cross Room.

Mrs. E. M. Wilson, Local Chm.

PIE SUPPER

Boyd Chapel H. D. Club is sponsoring a pie supper Tuesday night, April 14. Everyone is invited to come and bring a pie. All candidates are urged to come.

Spring Revival At The First Baptist Church

The spring revival at the First Baptist church will begin next Wednesday night, April 15. Dr. Harry Lee Spencer, pastor of the First Baptist church of Stephenville, will be the Evangelist. Night services will begin at 8:30 P. M.; Morning services, 10:30.

Dr. Spencer comes highly recommended by those who heard him. Before going to Stephenville, he was the successful pastor of College Avenue Baptist church in Fort Worth. He went to Stephenville some over a year ago to become pastor of the church attended by many students from John Tarleton College. He makes a strong appeal to young life, and we hope his coming to Hamlin will be an unusual blessing to the young men and women in our community.

We need a revival in our community, and the world. We covet the help of all Christians, that we may have a gracious revival beginning next Wednesday.

H. E. East, Pastor

Repair And Care of Home Equipment

A county wide demonstration on the care of stoves, refrigerators, machines, washing machines and other household equipment, will be held on April 21, beginning at 10:00 A. M. (war time) at Roby in the lecture room of the R. E. A. building.

Jack East of the R. E. A. will discuss care and use of all types of stoves, refrigerators, and other equipment.

Since this equipment is going to have to last for the duration of the war it will be necessary to give the best care possible to receive maximum amount of service from equipment now in use in the home.

This meeting is open to every person in the county and it is hoped that you will take advantage of this opportunity to learn how to make these items wear longer. This means men as well as women to attend this meeting.

This meeting is being sponsored by the Home Demonstration Council and Miss Jewell Hipp, Home Demonstration Agent, and the local Farm Security Administration Home Supervisor, Mrs. Johnnie R. Mason.

County Red Cross

Capacity classes in Red Cross home nursing got under way in Stamford this week, work was begun in Lueders, and classwork will start in Anson next week. Avoca women are already studying this course.

Plan is under way to provide Red Cross nutrition instruction to Jones County women in rural areas thru Defense Club meetings. Mrs. R. F. Mahood, nutrition chairman, announces. Name of Miss Clara Brown, home demonstration agent, has been submitted to headquarters for a nutrition instructor, who would teach Red Cross classes during Defense Club sessions in community centers.

Third executive board meeting of Jones County Red Cross Chapter will be held at Lueders April 13 in the home economics department of the High school. Hamlin, Anson, Hawley, and Stamford representatives will attend.

Methodist Church Services for Sunday

(McCAULEY)

Church School, 10:45 A. M.
Worship service, 11:45 A. M., under the direction of a visiting minister from McMurry College.
Young People's League, 8:30 P. M.

Adult League, 8:30 P. M.
Evening worship, 9:15 P. M.
The W. S. C. S. will meet Monday afternoon at 3:00 o'clock.

Second quarterly conference Friday at 8:15 P. M. at McCauley.
Grady Adcock, Pastor

Miss Edwina Gilbert had as Easter guests, Misses Mattie Dell Webb, Elva Ruth and Zula Mable Wylie, Anna Cochran, and Genie Rowden, all of Dallas.

In Memory Of Mrs. G. W. Bristow

The death of Mrs. G. W. Bristow cast a pall of sorrow over the Boyd Chapel community, where she had lived for many years, and was known as a woman of rare qualities of mind and heart. None held a closer place in the affections of more good people, for her whole life was a living sacrifice for others.

Mrs. Bristow was fatally burned Tuesday evening about 10 o'clock while attempting to remove some burning quilts and quilting cotton from the house. She was rushed to the hospital at Stamford where she died Wednesday, April 1, at 2:15 P. M.

Cora Veatrice Bennet was born Dec. 14, 1871, in Herd County, Ga., and moved to Bell County, Texas, in 1883. In 1889 she moved to Jones County, and was married to G. W. Bristow in 1890. To this union was born ten children, three, Arthur, Ruby and E. L. having preceded her in death. Those who survive her are Willie, Willard, Charles, Frank, Clinton, Bishop and Mrs. Hardy Bingham. She is also survived by several grandchildren and the following brothers and sisters: Mrs. J. H. Grayson of Merkel, C. R. Bennet of Spur, Hugh, Dee, and Edgar Bennet and Mrs. M. F. West of Ada, Okla.

Mrs. Bristow became a Christian in early childhood and joined the Baptist church of which she had been a faithful member all her life, and when the words came from her Master, "Well done, thou good and faithful servant," she gladly went in that faith that there is "laid up for me a crown of life." In her going we have lost a good woman; one that will be missed not only in the home, but in the community. Although she was 70 years of age, she was never idle but always at work. How we will miss those feeble footsteps and snowy locks! Little did the children know that the death angel would so suddenly come and take Mother from them, but you must be comforted by the thought that your loss is her gain. She has gone to join her husband for whom she was so lonely. I'm sure he was holding the gate ajar beckoning her to their heavenly home. Here, they are watching and anxious as each arrival enters the city, ready to welcome their loved ones. Could she speak out, we doubt not she would turn to us full tenderly and in the old melodious voice say, "Weep not, but rejoice."

Funeral services were conducted at the Boyd Chapel Baptist church Thursday afternoon at 4 o'clock by Rev. Reed of Abilene, assisted by the pastor, Rev. Vaughan. Rev. H. C. Bristow, a brother-in-law of the deceased, paid a beautiful tribute to Mrs. Bristow's life. Mrs. James Ferguson and F. L. Wood had charge of the song service. Special songs were sung by Misses Wanda and Leatrice Qualls of Rochester and Mrs. C. D. Bingham and Mrs. Delmer Estes. Active pallbearers were Earl Brown, Alfred Crow, Marvin Harper, Joe Allen, Ollie Estes and Alvin Dean. Honorary pallbearers were Judge Crow, J. P. Cornelius, Thompsey Young, G. J. Taylor and J. N. Flood. Those who carried the floral offerings were: Mmes. Bill Maynard, Sam Tindal, Othal Gray, Marvin Harper, Earl Brown, Lucille Crowner, and Misses Polly Kelley and Ethel King.

The body was laid to rest under a beautiful bank of flowers in the Neinda cemetery under the direction of the Barrow Funeral Home of Hamlin.

—Contributed by a Friend

Mr. and Mrs. M. O. Kimmey have a little daughter in their home, born at the Sweetwater hospital, March 30. M. O. said he had too much to think about to report this last week. One may see his beaming face at the Market in the Safeway Store.

Milton Wilson who recently completed a course in Electrical Welding in an Abilene school, left last week, accompanied by his wife, for Houston where he will work in the ship yards. Milton is the son of Mr. and Mrs. O. K. Wilson of Hamlin.

A fine nine pound boy was born to Mr. and Mrs. T. C. Gabriel Jr., at the Stamford hospital, Tuesday, April 7th. The young fellow's name was not learned.

Not Big But Good Rains Have Come This Week

There is no "news" item so welcome as that about a good, gentle rain, along about the first of April or soon thereafter, especially when no rain of any kind has fallen since this year 1942 started. Well, it's the big news this week.

About one and a half inches of rain has fallen during this week. It

is far from as much as is needed, but will hold up the wheat, stop the green bugs, and possibly make enough season for planting. It is planting time right now, both for feeds and cotton. Hence the rains mean much towards a crop for this year.

City Election Tuesday Polled Only 70 Votes

Tuesday was City Election Day. A mayor and three aldermen were up for election.

On the ballot were just enough names to meet the requirements.

For Mayor, J. C. Culbertson, 67.

There were two write-ins— Ted Russell received one vote and C. G. Green one vote. (Maybe these boys got together and voted for each other).

For Aldermen:

M. C. Wilson 69 votes

Fed H. Britton 65 votes

Thomas F. Holman 67 votes

There were three write-ins— Ted

Bledsoe, Jim Moody and Mac Brundage, each receiving one vote. (This also looks like some boys got together and voted in turn for each other). Well, it is still up to YOU.

One New School Trustee; 57 Votes

The school trustee election was quiet, as usual, however, there were a few more votes this year. There were two to be elected, and there were just three on the ballot.

J. Ubben was re-elected and Craig Elmore was put in as a new member. One write-in vote was cast for Fred Carpenter.

It is a hard job to get citizens to allow their names to go on a ballot for the school trustee job. Maybe the job does not pay enough.

Mr. and Mrs. LaFoy Patterson are announcing the arrival of little Miss Cynthia Jo, at their home on Sunday, April 5. The mother and little 8 and one-half pound daughter are in the Abilene Hospital doing fine, while Daddy and little Margaret Faye are keeping the farm. The new girl will be at home this Friday.

Aviation Cadet Warren Nobles of Harman Flying School at Ballinger, came up for the week end with his mother, Mrs. Vera Nobles. He was joined by his sister, Miss Marguerite Nobles from Texas Tech, who took advantage of the Easter occasion. Warren has had but a few hours in the air, but soon will be on his own up there.

Why are we skidding? Ask the seniors.

Flat Top Rabbit Drive To Be Next Tuesday

Next Tuesday, April 14, the farmers of the Flat Top community are inviting all who will shoot rabbits to come out and line up for a big drive.

They will assemble at the Flat Top Store, six miles north of the Hamlin Oil Mill, at 9:00 A. M. Then the drive will go north and end about 12:30 at the eating place in the Swenson pasture. Better be there for they already have the beef and the women will furnish lots of other good things.

Don't forget the day, Tuesday, April 14th.

METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School, 10 A. M.

Rev. Grady Adcock, of McCauley, will preach at 11 o'clock, Sunday morning.

Juniors, Intermediates and Young People meet at 7:30 P. M.

No evening service.

The Woman's Society of Christian Service meets Monday afternoon at 3 o'clock at the church.

Regular Board of Stewards Meeting Monday at 8 P. M.

Mid-Week Prayer Service Wednesday Evening at 8 o'clock.

Choir practice Wednesday night after prayer service.

Dudley Kennedy of Dallas spent the Easter holidays with his sister, Mrs. Landon Davis and family.

J. M. Sedberry visited his brother William in Las Vegas, New Mexico, last week.

Lanny Davis, son of Mr. and Mrs. Landon Davis, went to Dallas Monday where he was inducted as a Cadet in the air corps. He returned home Wednesday on a 30 day furlough subject to call.

Miss Zelma Knight of Breckenridge, came over Sunday to spend the week with her sister, Mrs. R. J. McIntyre and friends of Hamlin.

Mrs. Landon Davis and son Lanny, and daughter, Miss Phala, went to Sulphur Springs Friday to attend the funeral of a friend who was killed in a car accident.

\$3,000 OF DEFENSE BONDS

72 Big Prizes for Home Improvements—New and Remodeled Service Buildings

Here's your chance to win one of the 72 big prizes, totaling \$3,000 of Defense Bonds, offered in Successful Farming's Second Building Contest. Every farmer who improves the efficiency and comfort of one or more of his farm buildings has an opportunity to cover a part of his investment thru this contest. No matter how small or large the improvements may be,

whether you spend a few dollars, a hundred, or several thousand, your chance to win is the same. Each entry will be judged, not on the size of the building or remodeling, nor on numbers and cost of equipment, but on how well it has been done, how much it contributes to the welfare and abilities of the farmer and his wife and family.

THIS BIG BOOK FREE!

Upon receipt of your entry coupon, Successful Farming will send you absolutely free, a copy of its new 76-page book, "Successful Homes and Service Buildings." This magazine-sized book of building plans, photographs, and materials will help you with your building project present and future.

Complete contest information and entrance coupons are available here.

And now they have "frozen" the ladies' skirts . . . they can't go down and it is up to the women how high . . . this means streamlined slacks.

It would also be a good idea to "freeze" everything, right where it stands, till the Japs and Germans are whipped to a fraz . . . but before the freezing, rents in many, many towns should be melted down, away down, then freeze; the same could be said about war-time labor wages.

A man who has spent many years in Japan, says this country should remember that Japan in all of its thousands of years, has never been defeated in war, not a foot of enemy has ever been set on her soil. NOW to let her know what war means the best stroke would be for this nation to send a lot of big bombers over Tokyo and blast the daylight out of her . . . that would let them know they are NOT invincible . . . a thousand volunteer flyers can be found in fifteen minutes to do that very thing.

—T & T—

Men of Bataan—

This is Thursday, April 9, 1942. It will go down in our history as "The Sad Thursday" for it was on this day that the heart-breaking news came that our gallant men who for four long, hard terrible months had finally succumbed to the ever increasing onslaught of the Japanese. Not beaten, but far outnumbered by men, an ever larger number of fresh forces against the twenty-four hour, week-in and week-out fight of the men who carried our flag. Yes, this is the saddest news of all the four months and two days of this war upon us by Japan.

In that number of American boys on Bataan are several of our neighbors' sons, boys whom we have known from infancy, fine courageous fellows, the cream of any land. Theirs was not a defeat but an engulfment of brutal force against them in a far away land where help could not be extended. This is the price of war that has been thrust upon us. Probably many of these young men will never again put feet upon this free land of plenty, but for each and everyone who has fallen or has been captured there should be ten times more resolve now more than ever to make the Japs, the Germans and the Italians pay ten fold and more for each one taken. Is there a heart so cold, so indifferent but that a throb of sympathy will beat for the anxious parents and loved ones who wait and yearn to hear what has happened? Is there anyone who is so unconcerned as to not be awake yet to the dangers that stand out in every victory by our enemies?

The jungles of Bataan are silent now . . . like all the spots where the heel of ruthless force has traveled the past three years . . . American homes are now feeling what millions of Europeans have felt till it is now a common happening . . . every living soul in America from this day on should tighten up their determination to turn every item of strength that will help our men on the seas, the land and in the air. Bataan must be avenged, far and wide and completely, if it takes one year or twenty years, one billion or hundreds of billions. Let our cry be "On to Tokyo, remember Bataan."

—T & T—

A Low-Down Slacker

The Editor of this paper hereby calls upon our Congressmen to look into the origin and development of one of the most detestable, low-down cursed, flimsy excuses the human mind ever conceived to keep from fighting for one's country . . .

"conscientious objector." He is one who claims his religion forbids him to serve in an armed force, whose aim is to kill the enemy in the cause of freedom or whatever it might be his country calls for real men to do.

We plead ignorant and the lack of time to look up how the detestable words "conscientious objector" ever got started in this land of America. "Conscientious Objector". Surely it can't be in our constitution, surely it can't be a kind of law, some real he-man congressman will see to it that it is repealed, or try it.

For any kind of human flesh to be so cowardly, so yellow, so low-down as to get behind some form of religion to shield himself from what other men must face in defense of home, father, mother and sisters,

we say such a thing is beyond all reason and somebody should start a movement to "quelch" it right away, uproot it from every book or law or constitution (if it be) and let the world know such dumb foolery, cowardly cowardice can not be exercised in this land.

Now we are up to the point. Did you ever go see the picture where one dimple-cheeked, smiling, fine looking, dapper young fellow on the screen was playing the part of "Dr. Kildare"? We say did you? Sure you have. And thousands and millions have paid tribute to see that low-down "conscientious objector" scamp of polecat. His name is now entitled to stand alone with the "Quisling". A "Quisling" is higher in ideals than a "Lew Ayers". But Lew Ayers is not the only one, yet because of his nation-wide acquaintance, because of his "Dr. Kildare" playing, he becomes the one whose name will be linked for years with the lowest-down contempt that the American tongue can master. Any fellow who dodges behind his religion to keep from fighting will be known as a "Lew Ayers". That's the result of the famous player's trying to conceal his cowardice by cowardly claiming that he has "conscientious scruples." He is just too yellow to fight.

Now when one sells out his country, sees his own kind and neighbors shot or hung, to please some devil like Hitler, he is called a "Quisling". Now when an American claims "conscientious scruples" about going to war, he tells the world he is so low-down cowardly, so yellow, that he would see his own home bombed and burned and his own mother and sisters ravished rather than stand up and fight for freedom . . . that's a "Lew Ayer".

Now if this editor has to go to jail for speaking out our sentiments as strongly as our language will allow, then we'll make the best of it because right now our men are giving their lives in war while Lew Ayers, the "objector" sleeps safe in an "objectors' camp", and as this war goes on maybe others will seek this same cowardly excuse to keep from fighting. If such a law must be and can't be repealed, then why not tell this yellow type of young manhood, "No buddy, we will not make you fight or kill any dirty Jap, but we will make you come along to do the dirtiest jobs possible and your uniform will be a pale, sickly yellow, to show you do not merit the respect of a polecat."

Now let's see what is happening:

Boston, April 7—The Boston city council passed an order yesterday requesting the city censor to revoke the license of any theatre exhibiting pictures in which Lew Ayers, now in a conscientious objectors' camp, plays a part.

Look further what is happening. It does not help the mother who has lost a son in battle . . . and who likes to see such stuff published—look!

MORE CAMPS FOR OBJECTORS

Washington, April 7—Establishment of six new camps for conscientious objectors under the selective service system was announced Tuesday.

The new camps will be at Campton, N. H.; Jasper-Pulaski, Ind.; Lyndhurst, Va.; Okaloosa County, Florida; Placerville, Cal.; and Walhalla, Mich.

The camps will be managed by the National Service Board for religious objectors.

We have heard of many silly things in this nation, but this "conscientious" stuff takes the cake.

—T & T—

The War Front—

The Navy reported as of April 4 total Japanese losses inflicted by U. S. Naval forces included 21 warships sunk, 13 possibly sunk and 22 damaged; 48 non-combatant ships sunk, 14 possibly sunk and 14 damaged. The Army and Navy said Axis submarines sunk or presumed sunk by the Navy totaled 24, and those by the Army number four. Assistant Secretary of War for Air Lovett said U. S. pilots in the Far East are shooting down five Japanese planes for every plane lost.

—T & T—

The Herald anywhere 1 yr. \$1.00

Agriculture—

The Department of Agriculture says it had purchased more than 800 million dollars worth of farm commodities, totaling more than 7,500 million pounds, during the first year of the Department's expanded purchase program — March 15, 1941, to March 15, 1942. More than half of all purchases were for meat, dairy and poultry products. Most purchases were for Lend-Lease shipment.

Hamlin Boy Writes

From Australia

March 1, 1942

Dear Mom, Pop, and All:

Well, Australia is a wonderful place to be if you are a Yankee. That is what the people here call us. The people think we are the berries, including the fair ladies.

We can go to town just about as much as we could there and we have a good time when we go. Girls are plentiful. They have funny customs and their sense of humor is a lot different from ours.

It is a beautiful country here. We took some pictures today in the park. I'll send them just as soon as we get them developed.

The money is different here. It is in pounds, shillings, and pence. One pound is \$3.25 in our money.

Well, I don't know anything to say that wouldn't be marked out when this letter is censored, so I'll close.

Love and Kisses,

J. R.

P. S. Write all the news and tell everyone else to write to me.

John R Reynolds—Ser No 38042455 Co. E, 46th Engineer Rgt.

United States Army,
A. P. O. 916,
Care Postmaster,
San Francisco, Calif.

Hello, Soldier. We Hamlin folks are mighty glad to hear from you, "away down under." Here is one thing puzzling us: It seems that from the way ALL the soldier boys talk, the Australian girls have something our good old USA girls do

not have, or is it because you guys are so lonely? If Australia is ever lost to the Japs, bet a dollar the blame will fall on the Anzac girls. Guess it will be Okeh with the American girls, just so you fellows whip the Japs and come back. They will forgive you. Fight 'em boy, fight 'em.—Your Ed.

"When I get into one of those war arguments, I let the other guy do all the talking," chuckles Virgil F. Whiffletree. "He never finds out how dumb I am and sooner or later he exposes his own ignorance."

—Santa Fe Magazine.

Senator Lemens Will Continue in Race For Lieutenant Governor

Waxahachie, April.—More than ten years ago I was commissioned as a 2nd Lieut. in the Infantry Reserve of the U. S. Army. Some three years ago I was placed on Inactive Duty Status.

On Tuesday, March 24th, I received orders by direction of the President under this Commission to Extended Active Duty effective April 6, 1942, and was directed to report to the Commanding Officer for duty with the Station Complement, Corps Area Command, Camp Bowie, Texas.

While these orders were a surprise to me, I am ready and willing to discharge all duties required of me in the defense of my country. I shall report as directed to the Officer and at the time and place specified.

This required military service will make it difficult for me personally to complete my campaign for Lieutenant Governor. Yet, the campaign has developed satisfactorily for months before the above-mentioned orders were issued and it has progressed to such an extent that the campaign should continue. It is, therefore, my present intention to remain in the race and to continue the campaign insofar as my ability will permit.

I call upon my friends throughout the state to continue the fight for me and in my name. When elected, I can reasonably expect that leave will be granted to permit the discharge of my duties as Lieutenant Governor.

During these days of great military preparation, I feel that a Lieutenant Governor in the military service of his country can most effectively correlate the efforts of the great State of Texas with those of the National Government.

VERNON LEMENS

Mr. and Mrs. W. H. Stephens of Abilene, were here Sunday to visit Mr. and Mrs. C. C. Prater and Mr. and Mrs. Tom Neeley.

TO GUARD COTTON PROFIT —plant CERESAN-TREATED seed!

This season, don't waste money, time and labor on cottonseed that won't produce a good stand and paying yield. Go on the defensive against seed-borne diseases right now by planting only CERESAN-treated seed! Texas Agricultural Experiment Station, reporting on tests, says, "Machine delinting plus treatment with . . . Ceresan gave highest increases in germination and yield." CERESAN generally reduces seed rotting, soreskin, surface seed-borne anthracnose and angular leaf spot; helps protect early-planted seed in unfavorable weather; usually improves stands to save replanting; commonly increases yields, often 10 to 25%. Treat your own seed, or buy seed marked with the Ceresan Certificate Tag.

TREAT OTHER SEEDS, TOO!

Use Semesan Jr. for corn; New Improved Ceresan for small grains; Semesan for vegetables; Semesan Bul for potatoes.

Pretty near "a coon's age" before you add a quart

How this oil with its modern synthetics—man-made betterments—triumphed in the Certified Death Valley Test. Why it out-mileaged five others more than 2 to 1 . . .

A PEBBLE starting an avalanche that wrecks a town can illustrate one big thing to you about getting full mileage from your oil change this Spring. (Spring change is a serious "must," all authorities warn you.)

Now folks in the hills take care not to give pebbles any start. And by changing to Conoco Nth motor oil you are taking care not to let thickening get a start in your crankcase. The mush gets a start in your crankcase. The added modern synthetic . . . man-made Thialkene inhibitor in Conoco Nth . . . is aimed to inhibit or ward off the very start of bad "jelling" that often drags down mileage these days.

And still another synthetic in Conoco Nth has long been noted for its magnet-like way of attaching OIL-PLATING to inner engine surfaces. OIL-PLATING isn't all constantly draining down. Then instead of plain fluid-type oil film alone, which comes and goes, your engine can have this steadfast OIL-PLATING besides . . . Oil film sliding between OIL-PLATED engine parts!

What's gained in engine life and oil mileage? You can judge from the impartial Death Valley Test. Conoco Nth ran up more than twice the mileage averaged by five big-name quality brands—each by five big-name quality brands—each run till engine was ruined. Conoco Nth out-mileaged the next-best by 74% and another by 161% . . . certified.

What's the best oil mileage you'd hope for in your own car? See if Conoco Nth doesn't deliver. Your Conoco Mileage Merchant knows your correct Spring grade. Change today. Continental Oil Company

Charlie Jones Submits Proof of Statement

To the Voters of Fisher County and The 117th District:

On Feb. 4th, I announced my candidacy for the House of Representatives 117th District. At that time I gave out to the public the following affidavit:

Before me, the undersigned authority, county clerk of Fisher Co., Texas, on this day personally appeared Charlie Jones, who after being by me duly sworn, upon his oath deposes and says:

I am a candidate for representative of the 117th District, and I hereby pledge that if I am elected as your representative I will for the duration of the war with Germany, Italy and Japan, contribute fifty per cent of my salary paid me as such representative to the American Red Cross and will invest the other fifty per cent in defense saving bonds and stamps.

Signed, Charlie A. Jones

Sworn to and subscribed by the said Charlie Jones, before me, this the 4th day of February, 1942, to certify which witness my hand and seal of office.

(Seal) B. L. Conley,
County Clerk, Fisher Co., Texas

The question has been asked since you are to give half of your salary to the American Red Cross and invest the other half in defense savings bonds and stamps, how can you meet the expenses of your campaign and the high cost of living in Austin?

If elected your representative I will have sufficient funds in Austin, and will spend every dollar necessary, in keeping with the dignity and honor of the office, out of proceeds from my farm here in Fisher county.

As to my public activities:

In Feb., 1939, I was invited to and spoke in Austin to The Dirt Farmers Congress on the subjects "Landlord and Tenant," "Soil and Water Conservation," and "The Theft of Livestock." In Feb., 1940, I was called back to Austin, and was one of the executive committeemen that co-ordinated a group of farm co-operatives. At present I hold three county-wide offices in the church, and I am on a district committee, I also am the county chairman of a national organization.

With world conditions as they are and since the bulk of our young manhood is being drafted (my own boys included) I feel that I can't afford to do less than I am sworn to do in the affidavit. I will gladly do this and more. I have already bought bonds and stamps and contributed to the Red Cross and will continue to do so. It is not my purpose to seek any financial gain during this conflict. It is my purpose to give my best and my all to my country and her allies. If our young manhood can give their all in our armies for \$21 per month, and many of them spill their blood for the liberties we American people hold dear and sacred, then I can give my salary to furnish them with guns, food and bandages to dress their wounds. I realize we are at war.

My platform if I shall have one, will be, "take the offensive to the enemy, meet the emergency." It is my opinion that we can't tell at the present time with any degree of accuracy what legislation will come before the next regular session of the legislature which is some ten months off. Members of the next legislature will without a doubt have the greatest task and responsibility placed upon them of any body of Texas law makers in several decades. There will probably be sacrifices growing out of the last months of the war, the period of soldier return, and the reconstruction period, which will involve many serious questions.

I have lived in West Texas nearly 49 years, and have lived in this district over 22 years. I know West Texas and the problems of the people of the various sections of Texas. If elected your representative I can vote the sentiment of the 117th district. I promise you I will stay on the job, will study all legislation, practice economy and vote honestly and conscientiously.

I appreciate very much the words of encouragement and the moral support being pledged me from all sections of the district. I shall not fail you.

I solicit your vote and influence. I thank you.

CHARLIE A. JONES

WISE CHAPEL NEWS

By Catherine Drake

Well at last we have got some rain and it looks as if we are going to get more. Let it rain.

Mr. and Mrs. A. W. Jobe and family spent Sunday with Mr. and Mrs. Roy Cooke and family at Camp Berkeley.

Mrs. Ennief of Illinois is visiting her daughter Mrs. F. Vaughan and family this week.

Mrs. Russell Glenn and daughter of Abilene and Miss Margaret Riddle of Denton spent the Easter holidays with their parents, Mr. and Mrs. Ralph Riddle and family.

Mr. and Mrs. P. S. Scott and son Harry of Lueders spent Sunday with their cousins, Connie Drake and sisters.

Mr. and Mrs. J. R. Bonds and son of Hamlin spent Sunday with their parents, Mr. and Mrs. Joe Bonds.

We are sorry to report that Mrs. Tom Neill is on the sick list.

Mr. and Mrs. T. W. Flenniken and daughters and Mr. and Mrs. Dave Herbst visited in Lamesa, Levelland and Ropesville from Thursday till Sunday.

There are several cases of mumps and measles in our community.

Mr. and Mrs. Junior Patterson and daughter spent Sunday with her parents, Mr. and Mrs. Tom Neill and family.

Jack Vaughan of Texas Tech in Lubbock spent the Easter holidays with his parents, Mr. and Mrs. F. Vaughan and son.

BOYD CHAPEL CHIRPS

By Mrs. James Ferguson

Mr. and Mrs. Bert Killingsworth and baby of Longworth visited last Sunday in the home of Mr. and Mrs. Thompson Young.

Mr. and Mrs. J. A. Holden visited Mr. and Mrs. Carl Holden in Abilene Monday and also went to see the parade.

Mr. and Mrs. Paul Young and Judy Colene were Sunday visitors in the home of Mr. and Mrs. J. D. Rainy of Plasterco.

Luther Haught went to Coleman Monday for a few days outing and fishing.

Our community feels a great loss over the tragic death of Mrs. G. W. Bristow who passed away at 2:00 P. M. April 2nd. A true Christian, friend and neighbor has gone to her heavenly home. To know her was to love her. Our deepest sympathy goes out to the bereaved family in their hours of sorrow.

Mr. and Mrs. J. P. Bingham and T. T. Bingham and families viewed the soldiers' parade in Abilene Monday.

Several from our community attended the singing convention which met in Anson Sunday.

SINCLAIR SCHOOL News of The Week

The Sinclair school had an Easter egg hunt and treasure hunt last Friday afternoon. The hunts concluded at the Judge L. Crow farm where each child was presented with a prize and Mrs. Crow served all the pupils and teachers with sandwiches, cookies, pies and punch. Everyone reported a marvelous time.

Mr. and Mrs. Wortham Crow and daughter, Brentz Ann, spent the Easter holidays in Snyder with Mrs. Crow's parents, Mr. and Mrs. G. D. Gibson.

Expression of Thanks

We wish to express our deepest appreciation to our neighbors and friends who were so kind to us in the loss of our loved one. Your sympathy will never be forgotten.

Uncle Sam Contracts for 632 More Cargo Vessels

WASHINGTON. — The United States maritime commission announced that it had negotiated contracts for the construction of 632 additional merchant vessels. These, it was said, would bring its program up to President Roosevelt's request for 8,000,000 deadweight tons of shipping this year and 10,000,000 deadweight tons next year.

Captain Howard L. Vickery, a member of the commission, estimated that the 632 vessels, all of the emergency type known as Liberty ships, will cost \$1,110,000,000.

All the vessels will be completed by the end of 1943, Captain Vickery said.

Nazis Offer Reward for Message-Bearing Pigeons

LONDON.—The Belgian bureau of information said that Germans in Belgium and France were offering rewards for citizens to turn over to the authorities carrier pigeons bearing messages and also for parachutes, message containers and propaganda leaflets dropped by planes of countries at war with the Reich.

40% of Bomber Plant Workers Will Be Women

KANSAS CITY.—Officials of North American Aviation, Inc., disclosed that 40 per cent of the employees of its bomber assembly plant in Kansas City will be women. Employment of women workers began in the plant stock rooms. Company spokesmen said that training of women for skilled work in the bomber plant will begin soon. Wives of men in military service will be given preference.

BOMBS!

... after 10 Years of Inaction

WASHINGTON is "concerned" because the country has not awakened to the danger of bombs!

And the people are concerned—
nay, alarmed—because Washington has not awakened to the danger confronting the country!

For 10 years the average American has been exposed to perpetual e-motion. Each so-called "emergency" has resulted in creation of some new alphabetical bureau or agency until today he has little sympathy for the inconveniences of an over-crowded Washington.

With patience exhausted, the average citizen now is demanding something more than words, something more than cajolery to build up his morale.

He wants examples, actions, in high places.

Why, he is asking, is his money (taxes, bonds and stamps) allowed to be wasted on non-essential activities while boys in the armed forces are dying for lack of guns, ships, tanks and planes?

He ordered fighting equipment to rain bombs on the Axis!

No other country can compare with America's potential war production. No other has

the men, the machines—or the electric power.

America's electric companies, under trained and experienced business men, are supplying power for the vast wartime industries, in addition to your home and business, where it's needed when it's needed and in quantities greater than the combined total of all the enemy countries.

Last year they paid \$510,000,000 in taxes—enough money to equip 2,400,000* soldiers . . . enough money to build 9,273* pursuit planes, 2,429* light bombardment planes, or 1,522* flying fortresses!

Here's a business built the American way—by local enterprise and public individual investment—and regulated by the government and dedicated to defending America's freedom and democracy until the last dictator has fallen.

Flower Jewelry Made From Fish Scales

Head Bands Are Again Worn For Sport.

By CHERIE NICHOLAS

Lovely flower jewelry will give a springlike freshness to suits and frocks this season. There are wonders being performed with plastics, ceramics, fish scales, and beautiful floral necklaces and bracelets are being crocheted of transparent peroxylene straw.

You will find that flower jewelry will accent the "pretty look" in your costume. The new flowers are stressing delicate treatments, especially filigree workings, massed in necklaces, brooches and bracelets.

Exquisite "spun sugar" effects in the acetate plastics contribute glistening effects that show off smartly against the new navy costumes and crisp white backgrounds.

Artistry is expressed in the making of fish scale jewelry tinted in delectable colors, the scales wired individually and worked into most attractive floral pieces.

For casual wear with sports clothes, stunning necklaces and bracelets take on bizarre South American colors which tone up sweater outfits and the new bright cotton clothes very effectively.

The fashion of wearing flowers in the hair takes the form of flower fantasies and novelties made of plastics and other media. With sport clothes young girls are wearing bandeaux across the top of the head from each side of which is suspended a cluster of cherries.

There is a "gay senorita" look about the colors and the flowers and the jewelry we are borrowing from countries below the border, from Mexico to South America.

Side Drape

Black faille silk and sheer wool features the new side drape. Designers are playing up these side-drape effects throughout the spring mode and the outlook is for a tremendous vogue for this type of skirt. Sometimes the lap-over is outlined with a fine pleating of self fabric or matching grosgrain ribbon, or perhaps edged with a cascade of lace or finished off with a scalloped edge. Often the bodice top also fastens to one side in a symmetrical movement that is very pleasing to the eye. This type of skirt draped to slenderize is particularly chic topped with a youthful bolero, for the bolero is taking on renewed importance this season.

Blackout Scarf

A novelty scarf, designed to be worn in blackouts, is of spun rayon with scattered stars in an applied chemical which glistens in the dark. The scarf can be laundered successfully.

Style Notes

Gray shades are smart for spring. The short curled hair-do is coming in. It's patriotic to wear cottons this year.

Tie-front soft suits are the newest fashion. The overseas cap is a favorite spring millinery type.

Loose sleeves and yoke details individualize new spring coats. Gay cotton print skirts will be popular with junior and teen-age girls.

Advance millinery gives more emphasis to novel brims than to crowns. A widespread vogue is predicted for the print blouse with matching hat.

Farm Goals for 1942 Increased

Department of Agriculture Calls for Use of Every Acre to Win War.

WASHINGTON. — Declaring that events since Pearl Harbor had materially broadened demands for American food, the agriculture department has increased its 1942 production goals for hogs, corn for livestock feed, oil-bearing crops, rice, eggs, dry beans and vegetable crops for canning.

The department said that since the original goals were announced last September, the United States had come to be looked upon not only as the arsenal but the food store of the United Nations.

To meet these new demands, the department said farmers would have to produce as never before and put "every acre of land, every hour of labor and every bit of farm machinery, fertilizer and other supplies to the use which will best serve the nation's wartime needs."

Officials said crop loan programs, government purchases under lease-lend and relief programs, and sales of government-held feeds would be employed to provide, in so far as was possible, price incentives.

Corn Limitations Eased.

Rigid crop control restrictions will be retained on wheat and cotton. Slight increases will be allowed for tobacco. Asserting that large stocks of these crops already exist, the department said production beyond crop control allotments would be a "waste of labor and supplies."

Crop-control limitations on corn were eased somewhat. The 1942 planting goal was increased from 90,000,000 acres to 95,000,000. No marketing quotas will be imposed on the corn crop.

Because of increases in production of hogs and chickens, the department said larger feed supplies would be needed.

Particular emphasis will be placed on oil-bearing crops, the department said, because of loss of Far Eastern supplies owing to the war. The peanut goal was increased from 3,500,000 to 5,000,000 acres, the soy bean goal from 7,000,000 to 9,000,000 acres and the flax seed goal from 3,367,000 to 4,500,000. The department said efforts would be made to get production of lard, tallow and grease stepped up in packing plants.

Cotton Under Quota.

Other goal increases included: Rice from 1,200,000 to 1,320,000 acres, dry beans from 2,304,000 to 2,600,000 acres, eggs from 4,000,000 to 4,200,000,000 dozen, hogs for slaughter from 79,300,000 to 83,000,000 head, blue-cured tobacco from 762,000 to 843,000 acres, burley tobacco from 358,000 to 383,000 acres, other types of tobacco 1,200,000 to 1,320,000 acres, canned peas and tomatoes from 62,700,000 cases produced in 1941 to 78,000,000 cases.

Although cotton allotments were not increased, the department said planting was expected to total about 25,000,000 acres, compared with 23,250,000 in 1941. Marketing quotas will be imposed on this crop.

To encourage greater production of long-staple cotton, the department will offer special premiums on staples of one-eighth inch and longer.

Tree-Climbing Cats Put

Sacks on New Fire Trucks

BEARDSTOWN, ILL.—A canvas sack has become standard equipment on the new fire truck here. Fire Chief Roy Patterson says his department has been called to rescue so many high-climbing cats that he had to add a sack to his equipment for his own protection.

"We rescued three cats last week," said Patterson, "one from the top of a light pole and two from tree tops."

Since cats are never in a playful mood at such altitudes, the firemen take a sack with them to throw over the cat, which thus becomes a harmless bundle to be toted to safety.

La nplighter Harry Has

Fit of Blackout Blues

KENMORE, N. Y.—Blackouts are just a headache for Harry Torillo, who works for the department of public works. His job is to extinguish all of Kenmore's 317 gas street lights in case of a blackout.

Kenmore missed complete electrification when depression forced the village to curtail expenses. Torillo must start turning out the lights about five hours before the familiar electric arcs are extinguished in the village. This seems bad enough, but putting the lights on again is even worse. It takes about two days.

NYA Constructs Trap

To Catch Flies on Cows

WAURIKA, OKLA.—It was no baby fly trap that NYA youths built here to catch flies. It was so large in fact that it holds a cow. The fly trap, measuring 10 feet by 7 feet by 6, is designed so that when a cow passes through the structure, the flies get brushed off and are caught in screen containers. Such a trap has been known to catch 18 gallons of flies in a week. Suppose one was made for an elephant?

By Charles V. Griffin, Co. Agent

New Methods of Controlling Green Bugs

Some success has been reported from farmers South of us in controlling the Green Bug on small grains by rolling the infested grain plants with a heavy roller and more or less bruising the plant which causes the plant lice to leave. Some more success has been reported by using a harrow with the teeth slightly turned back to prevent scratching up the wheat or oats. Since these two methods are inexpensive, it might be advisable to try one of these.

Lump Jaw on Cattle

Lump Jaw is caused from a germ entering the tissue and may cause swellings anywhere, but is most common on the jaw, under the throat or on the tongue. Potassium Iodine crystals has been found very effective for eliminating this germ and should be given in a drench at the rate of two drams a day for three days. For further instructions, contact the County Agent's office.

Mange and Scab on Hogs

Mange is caused by a mite that burrows into the skin of a hog. These mites are visible with the naked eye if isolated on a black piece of paper. Old lubrication oil is very

cheap and effective in controlling mange. Cresote dip and Lime sulphur are also effective.

Longer Staple Cotton

The Lubbock Experiment Station has reported the following varieties of cotton with a staple of from 1 1-8 to 1 1-16: Acala, Texcala, and Delfos. They report that in wet years these varieties produce a weak staple, but a long one and on real dry years the staple is shorter but of good strength. The Acala and Texcala seed can be ordered from John D. Rogers of Navasota, Texas, and the Delfos can be secured from the Delta and Pine Land Company at Delta, Miss. The Acala, however, has shown the best yield of the 3 varieties listed. Someone will probably be interested in trying a small acreage of these varieties.

Rat Campaign

Most everyone is signing up for rat poison, but to make the rat killing effective everyone should sign up for it since rats travel from one to five miles. Everyone signing up should see that his neighbor signs up also so you won't get your place re-infested with his rats.

CHARLES GRIFFIN
County Agent.

Gibraltar Rock Made Stronger

Defenses Called 'Fantastic'—Guard Fortress From Attack by Land.

LONDON.—The reported arrival of German troops on the Spanish frontier as having come through the Nazi-occupied Biscay littoral arouses renewed interest in the defenses of Gibraltar.

Just before the war Marshal Pétain, when ambassador at Madrid, paid a visit to the Rock and pronounced it, in a private letter to a Paris friend, "impregnable even from the land side, where the approaches can be easily enfiladed by warships."

In the last four years, according to periodic reports dealing with generalities, the defenses have been completely reconditioned in order to meet modern methods of attack, which have been employed by the Germans elsewhere with more and more finish.

Writer Looks It Over.

Quite recently General Viscount Gort, who is in command of the Rock and director of the various naval, army and air staffs assembled there, was permitted to divulge certain aspects of the "new Gibraltar" and ordered an officer to accompany a correspondent of the Daily Telegraph of London on a tour of inspection through the works. From Madrid the correspondent got the following dispatch through to his paper, with no censoring in evidence:

"For two days I was taken through every phase of these fantastic defenses, starting where you cross into the zone from the little town of La Linea on the border."

"There are three zones. They are: 'The new defense area against attacks by land from Spain; the harbor areas containing the immense anchorage and dock facilities and the tremendous new seaplane base; the interior of the Rock itself, which has been developed fivefold since the war began, for the British have now made Gibraltar as impregnable from land as from sea."

"You reach Gibraltar along a narrow peninsula separating the Mediterranean from the harbor. On this stretch 26 sets of concrete tank barriers cross the road and you weave through these for a mile."

No General Entrance.

"On each side of this single route is a flat area 700 yards wide, studded with immense pillboxes and tank traps, flame-thrower stations and anti-aircraft batteries."

"At the end of the mile is the first of two canals between the sea and the harbor, cut across the road and serving as great modern moats. Beyond these you reach the garrison gates and the cantonments, the mined approaches to the docks and the Mole."

"Here a great battle fleet rides at anchor, among it two famous ships recently under repair at New York."

"There is no general entrance to the Rock. The Rock itself is a mile long and a half a mile wide, 1,000 feet high, consisting entirely of limestone, through which it is relatively easy to tunnel. Its fortifications are centralized on each of the three faces, each an immense network in itself."

"Some 2,000 tunnelers are working in Gibraltar 24 hours a day. There were two miles of tunnels when the war started. Today there are ten. A total of 20,000 men can live in that Rock indefinitely, and these men are stationed at Gibraltar now."

Army Is Best Uniformed In United States History

WILMINGTON, DEL.—Men in the United States army are receiving the best uniforms ever to be issued soldiers, and veterans of the last World war who were envious of modern soldiers whose outer garments are treated to shed water.

The army jacket, worn both on and off the post, is treated chemically to shed water and resist spots, stains and perspiration. The jacket is made of cotton poplin, lined with wool where added warmth is required.

Tightly woven and treated with "Zelan" at the textile mill, the poplin can be made into a garment having many virtues.

Only a driving rain will soak through the jacket. Non-greasy spots and even splashes of soup may be sponged off with a damp cloth. The coat also serves as a wind-breaker. It may be repeatedly dry-cleaned or laundered with only a slight change in its repellent properties.

Find Ancient Mammal's Hoofprints in Wyoming

WASHINGTON.—The discovery in Wyoming of what are believed to be the only hoofprints ever found of any of the mammals which roamed the earth during the Tertiary period was recently announced. This traces life back to 40,000,000 years.

Lincoln Statue's Fence To Go to Blast Furnace

LONDON.—Abraham Lincoln's statue in Parliament square has been stripped of its protecting iron fence to boost Britain's scrap-iron supply.

It was announced that guards would be assigned to watch over the statue to prevent vandalism.

George Washington's statue in the National Gallery grounds facing Trafalgar square still is protected by a railing.

Canadian Foresters Find Dead Scottish Chieftain

SOMEWHERE IN SCOTLAND.—A company of the Canadian forestry corps, building a road into a wood, uncovered a large box, made of thick stone ingeniously dovetailed at the joints. A lieutenant opened the box and found a skeleton, knees drawn up to the chest and arms folded.

Police were notified and the Scottish equivalent to an inquest was held. Anthropologists and paleontologists hurried from Edinburgh. A small vase and several other souvenirs were eagerly seized upon by the scientists.

At the inquest the scientist testified the man had been dead since about 1500 B. C. The skeleton, reported to be that of a chief in the war council of his day, was turned over to the University of Edinburgh.

Why are we skidding? Ask the scientists.

GENE AUTRY POSES WITH BULL

Champ Meets Champ

Will Spur Work on Man-Made Rubber

Schedule Calls for 400,000 Tons by 1943.

NEW YORK.—Planned expansion of synthetic rubber plants will be carried through on a scale that will make the United States at least 50 per cent independent of natural rubber sources within little more than a year, the American Petroleum Industries committee predicted.

Reviewing the progress of the synthetic program sponsored by the government, the committee pointed out that present plans call for production of 400,000 tons of synthetic rubber annually by 1943, compared with estimated annual rubber requirements of 800,000 tons.

This program, it added, will be based "almost entirely" on oil and natural gas as raw materials.

The major problems on which this expansion depends, the committee said, are government financing, steel priorities and possible conflict with the petroleum industry's program for production of 100-octane aviation gasoline.

The committee predicted that priorities also would be granted for the tons of high-grade alloy steels needed to build the new plants required for the \$400,000,000 synthetic rubber program, because of the government's interest in the project.

While details of any possible conflict with the rapidly expanding aviation gasoline production have not yet been clarified, the committee predicted that the petroleum "starting points"—butanes, isobutanes, butylenes and other gaseous hydrocarbons in cracked refinery gasses and natural gas which are used in both synthetic rubber and 100-octane gasoline—would be made available.

Shipbuilding Is Booming In the Port of Savannah

SAVANNAH, GA.—The Savannah is booming with defense activities, latest of which calls for the outlay of \$60,000,000 in building concrete tankers for oil cargoes within a year.

The MacEvoy Shipbuilding company, under direct contract with the United States Maritime commission, will build the 6,000-ton tankers. The company expects to employ 10,000 men during the first year.

Work has started already and the first keel will be laid early in March. A minimum of 30 tankers will be built during the first year. Operations are on a 24-hour-a-day basis.

The tankers will be 360 feet long and will carry 15,000 tons of oil. Construction costs are estimated as only one-half that of steel ships.

Old shipbuilding facilities here are being reconditioned and three of the 10 existing ways were put in condition in 10 days.

The construction of these new facilities gives Savannah three shipbuilding concerns. One company is building merchant marine ships while the other is turning out mine-sweepers for the navy.

Tell The Herald your news.

Ft. Worth.—Caught by the cameraman during the recent Southwestern Rodeo and Fat Stock Show at Fort Worth was screen star Gene Autry as he gave a critical once-over to Arngibbon Reserve, grand champion Shorthorn bull of the show.

The bull is owned by W. C. Anderson & Son, West Liberty, Iowa, and was bred by McLay Bros., Janesville, Wisconsin.

Autry, famed for bringing the story of the colorful West to millions, was raised on a Texas ranch. A practical stockman in his own right, he is owner of the Flying A Ranch near the Texas border in south central Oklahoma.

Some More Bull

The 1941 International Grand Champion Steer, Loyal Alumnus 4th President, Prime Minister and Generalissimo of the livestock world, comes to Stamford, Tuesday, April 14, at 8:00 P. M., when he will walk into the show ring at Prewitt Motor Co.

Loyal Alumnus, one-half ton of champion beef, is being brought here for free exhibition to farmers, 4-H club members, Future Farmers of America and all those interested in livestock raising, by the Farm Service Bureau of The Firestone Tire & Rubber Company, on a nationwide tour of cattle raising territories. An outstanding cattleman will describe the points sought by judges in picking the winner, and discuss methods of raising better beef more economically.

A cross between a purebred Angus bull and a purebred Shorthorn cow, the Grand Champion was born and raised on the Purdue University farm. Because of his champion's style, apparent even at that early date, it was decided at his birth to enter him in the International Live Stock Exposition.

"Loyal Alumnus 4th has the first essential necessary in every fine animal—a good inheritance. He is well-bred and looks it."

Coming from a family of champions, Loyal Alumnus travels in a manner fitting for royalty. The custom built land yacht which the Firestone company has prepared for him is air conditioned and equipped with specially designed feed boxes. When he sleeps, it's upon a foamed latex mattress to cushion him against any jars or bumps. He is accompanied by a crew of three men who strive to keep Loyal Alumnus at the peak of perfection he had attained when he was named Grand Champion.

Texas H. D. President Visits Jones Co. Council

Mrs. G. W. Kennedy of Muleshoe, president of the Texas Home Demonstration association, visited the Jones County Home Demonstration Council Monday afternoon. The theme of her message was to carry on and to learn to appreciate what we have.

Six of the nine clubs were represented by the following delegates: Mrs. Charles Myatt, Willow Creek Club; Mrs. C. D. Bingham, Boyd Chapel Club; Mrs. Walter Love, Hanna; Mrs. J. C. Williams, Avoca; Mrs. G. H. Rennels, Avoca; Mrs. Fred Moore, Mrs. Will Myatt, Mrs. J. C. Jeffrey and Mrs. Cecil Stevens. Visitors: Mmes. Dan Roberts, Margaret Ann Bristow, Charlie Bristow, Joel Daugherty and Roy Hines. Chairmen of the Expansion, Exhibit and Educational committees gave reports of the work that was being done, special stress being placed on Food Production and Conservation. Mrs. Will Myatt, chairman, presided over the business meeting. She appointed a Foods Committee to investigate co-operatively buying of pressure cooker parts, pineapple, jars and cans.

Optimisses Club Meets With Mrs. Kimmey

Mrs. M. O. Kimmey entertained the Optimisses club in her home Friday afternoon, March 27.

Potted plants attractively decorated rooms where games of 42 were played. Mrs. Tom Vaughan and Mrs. Dub Burgess tied for high score.

At the conclusion of the games, refreshments were served to Mmes. C. B. McGough, W. H. Dean, F. E. Barnes, O. G. Harvey, Pat Marlowe, Tom Vaughan, J. C. Jenkins, Dub Burgess, Gerry Richardson, G. P. Odum, Miss Dorothy Jane Bailey and the hostess.

Married At 1:15 A. M.

Rev. George Beavers, who is pastor of the Baptist church at Shinary Lake in Stonewall county, reports that he was aroused last Saturday night, at 1:15, really A. M. Sunday, by a young couple wishing to be married on Easter Sunday. The minister finally got awake to get his clothes on and came out talking. He said he told the couple, a soldier boy from Camp Berkeley, Mr. Thomas Hefner and Miss Maxine Trammell of the Shinary Lake community, that he would perform the ceremony "this time but not again this late." That just suited the happy couple and so they were married . . . It was Easter Sunday, too.

Mrs. Frank S. Holeten and son, Tommy, have returned to their home in Brownwood after a visit with her sister, Mrs. C. C. Prater and husband, and her brother, Tom Neeley and Mrs. Neeley.

Miss Eloise Riddle And Lt. J. B. Terrell, Jr. Married Monday

Miss Eloise Riddle, daughter of Mr. and Mrs. G. R. Riddle, of Hamline, and Lieutenant J. B. Terrell, Jr., only son of Mr. and Mrs. J. B. Terrell of Hamlin, were married Monday afternoon at 3:30 o'clock in the home of Rev. J. H. Hamblen, pastor of the First Methodist church in Abilene. The single ring ceremony was read by the Rev. Hamblen, who 27 years ago officiated at the marriage of the bride's parents, and 25 years ago read the ceremony that united the groom's parents.

The bride wore a two-piece suit of oceanic blue sheer with an off the face hat. Her accessories were black and white and her corsage was fashioned of white carnations.

The only attendants were Mr. and Mrs. Russell Glenn and Miss Marjorie Riddle, sister of the bride.

Both Mr. and Mrs. Terrell are graduates of the Hamlin High school. He attended The University of Texas and Baylor University. On April 1, he received his commission as a Second Lieutenant, Air Corps and wings of an Aerial Bombardier, from the Air Corps Advanced Flying School at Albuquerque, New Mexico.

Immediately following the ceremony the couple left for Miami, Florida for a wedding trip. Lieutenant Terrell will be stationed at Ft. Myers, Florida, with the 98th Bombardment Group.

McCauley H. D. Club

The McCauley Home Demonstration club met in the home of Mrs. Della Fancher, with Mrs. Horace Barton as co-hostess.

Members answered roll call by giving a helpful hint on First Aid.

The program was, "First Aid and Home Hygiene."

"Arranging trays attractively for the sick" was given by round table discussion.

"Home Hygiene and Care of the Sick" was given by Mrs. Happy Malone.

"Ways to Make a Sick Person more Comfortable," by Mrs. Carol Lee.

"Demonstration applying first aid in different situations," by Mrs. W. C. Jackson.

The program was well prepared and was enjoyed by all.

Mrs. Ben Kemp's name was drawn for the kitchen shower.

The hostesses served refreshments to the following: Mmes. Bill Fancher, Sue Miers, Ellis Eivens, Jim Jackson, Ben Kemp, Louis Boyd, Ray Maberry, W. C. Jackson, D. F. Maberry, Jimmy Fancher, Oliver Lee, Carrol Lee, Happy Malone, Ted Abbott, Glenn Henderson and Mrs. Frank Kemp, visitor.

The club will meet April 15th in the home of Mrs. Ellis Eivens.

—Reporter

Golden Wedding Celebrated Sunday

Mr. and Mrs. O. R. Greenway, who have been married fifty years, April 3, 1942, celebrated their Golden Wedding Anniversary with a dinner at their home Easter Sunday. In the afternoon, pictures were made.

Eleven of their fourteen children with a number of relatives and friends were present to enjoy this happy occasion with them.

Those present were Ruth Greenway, of Eden; Frances McAden of Ballinger; M. L. Greenway, Mrs. Hezzy Huddleston and daughters, Alice and Loveta, of Brownfield; J. P. Petit, of Rotan; Arthur Petit of Lubbock; Mr. and Mrs. John Greenway and children, Doyle, Tommy and Loye Gene of Sweetwater; Mr. and Mrs. Dewey Greenway and children, Riley, Arthur Dee, Lester, Horace Wayne and Ruby Nell of Rotan; Mr. and Mrs. Jack Greenway and children, Ruby, Martha, Clayton Ray and Jackie of Rotan; Guests from Hamlin were Buster and Berta Greenway, Mr. and Mrs. Link Greenway, L. M. Huddleston and daughters, Faye and Raye; Mr. and Mrs. L. A. Hill and children, Mable, Albert, L. V. and Thee, Mrs. Otto Wooderson and son, Byrol, Mr. and Mrs. Alvin Hill and son, Elza, Mr. and Mrs. George Vance and daughter, Nadine, Mr. and Mrs. Fred Carson and children, Charlotte Faye and Marsha Anne.

Canning Demonstration Scheduled For April

Pressure cooker clinics and canning demonstrations are being held by Clara Brown, Jones County Home Demonstration Agent and Lee Ann Williams, Farm Security Administration home supervisor throughout April. The latest canning principles of fruit and vegetables will be given in the afternoon meetings. Pressure cookers will be checked in the mornings. Everyone who is interested is invited to attend.

Meetings scheduled:

Wednesday, April 8—Boyd Chapel, Mrs. J. T. Bingham.

Thursday, April 9—Hanna community.

Friday, April 10—Pleasant Hill school house.

Monday, April 13—afternoon in the Carleton community.

Tuesday, April 14—Hodges, Mrs. J. M. Cook.

Wednesday, April 15—Golan, at the Methodist church.

Thursday, April 16—Avoca, Mrs. G. Rennels.

Friday, April 17—Central, Mrs. G. O. Gafford.

Men's hearts ought not to be set against one another, but set with one another, and all against evil only.—Carlyle.

Methodist Women Hear Program

The Woman's Society of Christian Service met Monday afternoon in the home of Mrs. Bill Rountree with Mrs. C. S. Barrow, co-hostess.

Mrs. L. H. McBride presided for a short business meeting during which Miss Eleanor Temple presented for the society a life membership to Mrs. D. O. Sauls.

Mrs. Barrow, leader for the program, gave the scripture reading and the meditation talk, followed by prayer by Mrs. Joe McCrary. Mrs. R. B. Wiar and Mrs. G. R. Bennett discussed the work of healing in India and the importance of the development of the Christian religion in India, the largest foreign mission field of the Woman's Division of Christian Service.

How to Care for Rubber Garments

Intelligent Caution Is Very Important.

By CHERIE NICHOLAS

Every one of us has a real duty to conserve all the rubber articles we may happen to have. One of the many ways women can help Uncle Sam these days is to take good care of foundation garments so as to prolong their usefulness. We should also strive to make our raincoats and rubber footwear last longer.

It is wise to buy new corsets, girdles, brassieres and other items only as they are needed to replace worn-out garments. This also makes sense economically and will do much more to keep the balance than trying to stock up for the future. Hoarding foundation garments is useless anyway, because the rubber gradually loses its pep when laid away. We can, however, make the corsets and girdles we wear give better service and last much longer if we follow a few simple rules.

Good care of a foundation garment starts with the buying. A too long, or too short, or too tight garment will wear out faster than it should because of the unnecessary strain. Remember, too, that a stitch in time may save your whole garment. Give your corsetiere any repair problem you cannot handle yourself.

The importance of keeping your foundation garment clean cannot be overstressed. Wash in tepid suds, rinse in tepid water, roll in a towel and press out the excess moisture. Hang up to dry away from sunlight or other direct heat.

How can we make our raincoats last longer? Again by being careful how we dry them. Let them dry in the open, hung on a good wooden hanger. Keep them away from heat. To clean raincoats, sponge with mild soap and water. Do not have them dry cleaned or use cleaner to remove spots.

Dainty Accent

For dressy moments of fun, for meeting new friends for whom you want to look your very best, glorify your costume with a dainty cotton lace yoke. The yoke shown at the top in the above picture is made of diagonal stripes of the lace, bordered by three ruffles of Val lace. This yoke has the very new deep neckline, finished off with a square shape by perky lace ruffles that give an epaulet look to the shoulder line. Peggy Drake, who makes her debut on the screen this season, is shown at the bottom of the picture wearing one of the "Dumbo" collars inspired by the Disney film of that name. The collar may be worn in different ingenious ways. Made of white satin, this collar draped over the shoulders in a carefree manner adds allure to any simple afternoon frock. In white pique, the collar can be worn either as a vestee or as a collar, as shown here.

A law is valuable not because it is law, but because there is right in it.—Henry Ward Beecher.

Mrs. R. B. Wiar left Wednesday for Midland to attend Northwest Texas Conference of the Woman's Society of Christian Service.

No genuine observer can decide otherwise than that the homes of a nation are the bulwarks of personal and national safety.—Holland.

Misses Carrie Johnson and Nadine Morgan returned to Wichita Falls Monday to resume their work of teaching in the public schools after spending the Easter holidays here with their parents, Mr. and Mrs. W. F. Johnson and Mr. and Mrs. J. P. Morgan.

"CALL TO COLORS"

For all-out flattery . . . this gay young frock of Carole sheer rayon. Styled for action with its wide, wide skirt . . . supercharged with newness in its flashing stripes, diminished midriff. In navy, green, and red; orange, rust, and green; yellow, red, and blue. Sizes 9-15.

Ice Deliveries Restricted

In keeping with the Government's program of conserving tires and trucks, we are announcing some restrictions upon deliveries of ice, effective APRIL 15th.

Beginning on that date, no special deliveries will be made in the residential districts after 12:00 o'clock noon. Regular deliveries will be made on our routes every morning and special orders will be filled if order is placed before noon.

In the business district, close-in commercial deliveries will be made all day, but customers are requested to co-operate with us by reducing the number of trips we are required to make as much as possible.

This policy is adopted in carrying out recommendations of the government that we save tires and equipment by cutting down mileage of deliveries. With this plan, it is our hope that we can make our equipment last through the war and keep up deliveries throughout the emergency. With the old system our equipment would soon be worn out and all deliveries would have to stop. Your co-operation in observing these restrictions caused by the national emergency will be greatly appreciated.

POT SHOTS FROM McCAULLEY

BY GEO. DARDEN

Marvin Davison, son of Mr. and Mrs. W. F. Davison, has volunteered for Uncle Sam's navy. Marvin has attended college at Denton for the past three years and we understand he is going in the navy as an instructor of physical education.

Buddy, son of Mr. and Mrs. Louis Boyd, was at home over the week end from John Tarleton.

Frances Davison, student at Denton, spent the week end at home with parents, Mr. and Mrs. Will Davison.

Students from colleges home over the week end were: Geraldine Henderson, Helen Smith, Walter Cybert, Emma Sue Hennington and Corine Akins.

Mr. and Mrs. Roland Stephenson and little daughter of Tucumcari, New Mexico, were week end visitors in the home of parents and other relatives.

Mr. and Mrs. A. L. Gregg were Sunday visitors in the home of Mr. and Mrs. Hiram Prather.

W. M. Miers of Lamesa visited in the home of parents, Mr. and Mrs. S. E. Miers one day last week.

The Junior play, "Hill Billy Courtship," will be given at the school house the night of April 16, and from reports, the play will be a scream, so don't forget the date.

Mr. and Mrs. L. B. Miers and children have gone to Lamesa for a two weeks visit in the home of Mr. and Mrs. Wick Miers.

Miss Gertie Mason tells us that she has plenty of scrap iron ready to turn over to the defense com-

mittee and the sooner its made into bullets and shot at the Japs, the better.

Louis Hopkins and Jack Gallaway have recently been employed at the Texas Cement & Plaster Co.

Fred Kemp, left for an army training base last Thursday, and about all the single boys left now around the old home town are the younger school boys, and we won't be surprised if some of us older married men will be taking off if this war lasts much longer.

A bridal shower, honoring Mrs. Louis Hopkins was given at the Baptist church Tuesday afternoon with forty-one ladies registering in the bride's book. Mrs. Hopkins was before her marriage Bill Milsap of McCauley.

Mrs. Ora Carroth, of Big Spring, has been visiting for a few days with her mother, Mrs. Etta Stephenson.

Mr. and Mrs. Raymond Young of Vernon were week end visitors in the home of Mr. and Mrs. Bill Fancher.

Mr. and Mrs. L. J. Davidson and children visited last week end with Mrs. Vera Jayroe, also now visiting in the Jayroe home are Mrs. L. A. Jayroe and grand daughter Joyce La Nelle of Welsh, Texas.

Rain began falling in McCauley Monday and is still raining and the smiles that makes us happy in West Texas are sometimes caused from rain.

Senator Tom Connally writes us that our suggestion of a "Rough Rider Organization" to patrol the thinly populated states down the coast line has been taken up with the proper authorities and we will be advised as soon as it can be acted upon.

Louis Boyd and several of the older cowmen have advised us that they are ready to sign up with a Rough Rider Organization, and we can guarantee that a hard riding, straight shooting man of the range wouldn't be very easy on the Japs or Hitler agents.

It might not be a bad idea to have a Jap concentration camp in Jones or Fisher county, any way during the cotton picking season, and a lot of West Texans would get a kick making the slant eyed fellows hump up with a white trailer.

Seventeen year old boys with only six weeks training are being shipped by Hitler to the Russian front. Such news doesn't make things look any brighter for the former paper hanger.

We are happy to know that the home boys who are scattered all over the world, who are getting the Herald state in their letters that they look forward for the paper each week. We can imagine how a little news from home helps keep their chins up.

Cars are becoming less numerous on the highways, and tires are about as scarce as hen teeth, but we do believe business is picking up in the small towns. In fact, when a fellow can't crank up and drive forty or fifty miles to a big town, then naturally he will saddle up old Dobbin and ride over to the old home town and spend the day, and too, when a fellow goes to town even with a dime he will likely spend a nickel.

Car after car, loaded with wall board, plaster etc., are shipped from the Gyp mill every day and if you don't think there is plenty of work going on at the mill, well just watch the trains take her away.

O-O-O

It appears to us that labor and capital are about to settle down to business and produce vital war necessities and from all accounts huge profits that are being made by some defense plants are going to be a

thing of the past. Most every one has agreed that when profit is taken out of war, there will be less wars and even though we were forced into this war by the cowardly attack on Pearl Harbor our citizens should not even think of profits to such an extent that the masses will suffer for years after this great struggle.

A small per cent of the population owns and controls the wealth of our land, not because they are so all fired smart, but the situation has been such for generations, money handed on down from Pa to son and as little as you think about it neighbor, the distribution of wealth in the future will be a major issue and the masses are going to demand a living and we don't mean merely breakfast, dinner and supper. There are a lot of deserving people in this world, and in many cases, they never had a break and it's not because they are dull, half-witted or bad management on their part. But they are just good, plain folks who are victims of circumstances.

ROUND TOP NEWS

By Raye Shelley

Folks, you should see the looks on everybody's faces today. We had the finest rain this week.

We are sorry to report that the home of Mr. and Mrs. Rupert Townsend was burned to the ground last Friday. There was nothing saved. This was the old Hill home.

The young people were entertained last Friday evening with a weiner roast in the home of Mr. and Mrs. Barto Jameson. Everyone enjoyed singing and games of all kinds. Those present were: Mr. and Mrs. Howard Gartman, Ruby, Ellen and Patricia; Mr. and Mrs. W. G. McCleskey and Jonelle; Mrs. Ruby Cooper, Billie and Mary Nell; Mrs. J. M. Bowdry, Leila and Annie Laura; Roy Cooper, Mr. and Mrs. Carl Harrison and Glenna Faye; Jackie and Nita Jo Brown; James Raye, and Joan Shelley; Coy and Adele Thompson; Rev. and Mrs. J. F. Crawford and Anne; Welton, Clifford, Glennon, and Estel Jameson; Mrs. P. Jameson; Woodrow Crawford, of Hillsboro, and the host and hostess.

Mrs. W. G. McCleskey entertained her Sunday school class in her home Sunday. All those present enjoyed a delicious dinner, and an egg hunt in the afternoon.

Mrs. Bell Cooper visited in the home of Mr. and Mrs. Carl Harrison Sunday.

Mrs. Odell Garrett and children, Helen and Vennis Parker, spent the week end in Hamlin with friends and relatives.

We nearly made the roll Sunday morning in attendance to Sunday school. We are having a contest next Sunday morning among the classes. We will not tell why or what for but you be there and find out! Your class may be the winner, and you will certainly enjoy the prize!
